DO NOT OPEN THE SEAL ON THE BOOKLET UNTIL ASKED TO DO SO

## INSTRUCTIONS

 Write your Roll No. on the Question Booklet and also on the OMR Answer Sheet in the space provided and nowhere else.

 Enter the Subject and Series Code of Question Booklet on the OMR Answer Sheet. Darken the corresponding bubbles with Black Ball Point / Black Gel pen.

Do not make any identification mark on the Answer Sheet or Question Booklet.

To open the Question Booklet remove the Paper Seal gently when asked to do so.

Please check that this Question Booklet contains 60 questions. In case of any discrepancy, inform
Assistant Superintendent within 10 minutes of the start of test.

Each question has four alternative answers (A, B, C, D) of which only one is correct. For each question darken only one bubble (A or B or C or D), whichever you think is the correct answer, on the Answer Shewith Black Ball Point / Black Gel pen.

 If you do not want to answer a question, leave all the bubbles corresponding to that question blank in the Answer Sheet. No marks will be deducted in such cases.

 Darken the bubbles in the OMR Answer Sheet according to the Serial No. of the questions given in the Question Booklet.

Negative marking will be adopted for evaluation i.e., 1/4th of the marks of the question will be deducted for each wrong answer. A wrong answer means incorrect answer or wrong filling of bubble.

 For calculations, use of simple log tables is permitted. Borrowing of log tables and any other material is not allowed.

11. For rough work only the sheets marked "Rough Work" at the end of the Question Booklet be used.

12. The Answer Sheet is designed for computer evaluation. Therefore, if you do not follow the instructions given on the Answer Sheet, it may make evaluation by the computer difficult. Any resultant loss to the candidate on the above account, i.e., not following the instructions completely, shall be of the candidate only.

13. After the test, hand over the Question Booklet and the Answer Sheet to the Assistant Superintendent on duty.

14. In no case the Answer Sheet, the Question Booklet, or its part or any material copied/noted from this Booklet is to be taken out of the examination hall. Any candidate found doing so, would be expelled from the examination.

15. A candidate who creates disturbance of any kind or changes his/her seat or is found in possession of any paper possibly of any assistance or found giving or receiving assistance or found using any other unfair means during the examination will be expelled from the examination by the Centre Superintendent/Observer whose decision shall be final.

 Telecommunication equipment such as pager, cellular phone, wireless, scanner, etc., is not permitted inside the examination hall. Use of calculators is not allowed.

1.	$If f(x) = \frac{\cos^2 x + \sin^4 x}{\cos^4 x + \sin^2 x}$	, then f(2016) is equal to
