

ICAR AIEEA PG 2026 Social Science Analysis

- Overall paper difficulty was moderate to easy
- Question format leaned mostly towards direct hits and match-the-following types, with very few statement or assertion-based questions
- Economics carried the highest weightage, with 55-60 questions
- Extension followed with 40-45 questions
- General Agriculture (including schemes) made up 16-18 questions
- Statistics had just 1 question
- PYQ alignment wasn't a direct repeat — the same recurring concepts came back, just framed with a slight twist
